

BROOKLYN COMMUNITY BOARDS

DEMOGRAPHIC REPORT 2022

**ANTONIO
REYNOSO**
BROOKLYN BOROUGH PRESIDENT

TO: Hon. Eric Adams, Mayor

CC: Hon. Adrienne Adams, Speaker
New York City Council

FROM: Hon. Antonio Reynoso
Brooklyn Borough President

RE: Brooklyn Community Boards Demographic Report 2022

Pursuant to the New York City Charter §82 (17), the Office of the Brooklyn Borough President submits this report on the application and selection processes for the appointment of community board members for the 2022-24 term.

THE VISION FOR COMMUNITY BOARDS

Borough President Antonio Reynoso's plan for community boards is directly aligned with his vision for a more equitable Brooklyn, which is founded on a diverse and civically engaged constituency. To achieve this goal, the Brooklyn Borough President's Office (BBPO) is committed to increasing youth participation and using a data-driven approach to ensuring that community board membership accurately reflects the demographics of the districts they represent.

THE PROCESS

When Borough President Reynoso took office on January 1, 2022, the application process was already underway. The previous administration accepted applications on a rolling basis throughout 2021. Upon taking office, Borough President Reynoso

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

THE PROCESS (CONTINUED)

suspended the application period from January 4 - 21, 2022 to facilitate the launch of a new website and an updated application designed to capture additional demographic information such as more precise age ranges, type of housing, preferred transportation method(s), educational attainment, and comfort with technology. To account for the downtime between available applications, BBPO extended the application deadline from February 14 to March 4. BBPO asked all community board district managers and chairpersons to publicize the active recruitment period and made announcements at the Borough Board and Borough Service Cabinet meetings.

After the application period closed, BBPO provided City Councilmembers with access to a digitized version of the applications from their districts, and subsequently held meetings with each Councilmember to review the applications from March 22 - 29. BBPO accepted signed recommendations from Councilmembers through April 13. In most instances, the Borough President deferred to Councilmember recommendations in making the appointments.

BBPO staff then began the process of interviewing remaining new applicants (who were not recommended by the Councilmembers), as well as 14 existing board members who applied for reappointment but had missed 50 percent or more of full board meetings in the last year, to assess their interest in continued membership. Depending on how many applications each board received, the staff selected candidates to interview based on a comparison of applicants' demographic profiles with each district's census data profile as provided by the Department of City Planning, as well as a review of applicants' statement of purpose and any relevant skills as described in their application. BBPO staff conducted 194 interviews as one-on-one virtual meetings between April 7 and May 5, using a consistent list of questions developed by the Director of Community Boards. BBPO staff then recommended, when possible, a minimum of three-to-four appointments per vacancy to the Borough President. The Borough President reviewed these staff recommendations along with the applications prior to making the final selections.

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

APPLICATIONS AND APPOINTMENTS

For the term beginning in 2022, BBPO received 828 applications, including for new appointments and reappointments. The Borough President appointed 449 applicants, including 182 first-time appointments (40.5 percent) and 267 reappointments (59 percent). BBPO rescinded membership from 25 people, primarily for non-attendance.

After this round of appointments, there were 43 remaining vacancies across the Brooklyn boards. This is due to two factors: first, the number of applications varied widely from board-to-board, with seven boards receiving less than 25 applications total; and second, BBPO encouraged Councilmembers to select members who live or work in their Council districts, and in some cases the geographic overlap between community district and Council district was so small that there were no applicants from that area. Note that the number of vacancies is constantly changing because membership is dynamic due to resignations and removals.

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

DEMOGRAPHICS

While we are aware that the Charter requires reporting about demographics of existing board members, unfortunately, BBPO does not currently have data about existing board members who were not reappointed this year. After next year's round of applications and reapplications, we will have all the data we need to report on the demographics of each board. This year, we are able to report only on the demographics of appointees. However, it is important to note that because some applicants filled out the old application in 2021 and others filled out the updated application in 2022 (which captured additional information), we do not have consistent data even for this year's appointees. We also recognize that, due to limited time for outreach, the demographics of the appointees shown here may not reflect the demographics of Brooklyn as closely as we would like. Both of these issues will be addressed next year when only the updated application form will be used, and we will have time and resources to implement a more robust outreach plan before the appointment process begins. (See "Looking Forward," page 6.)

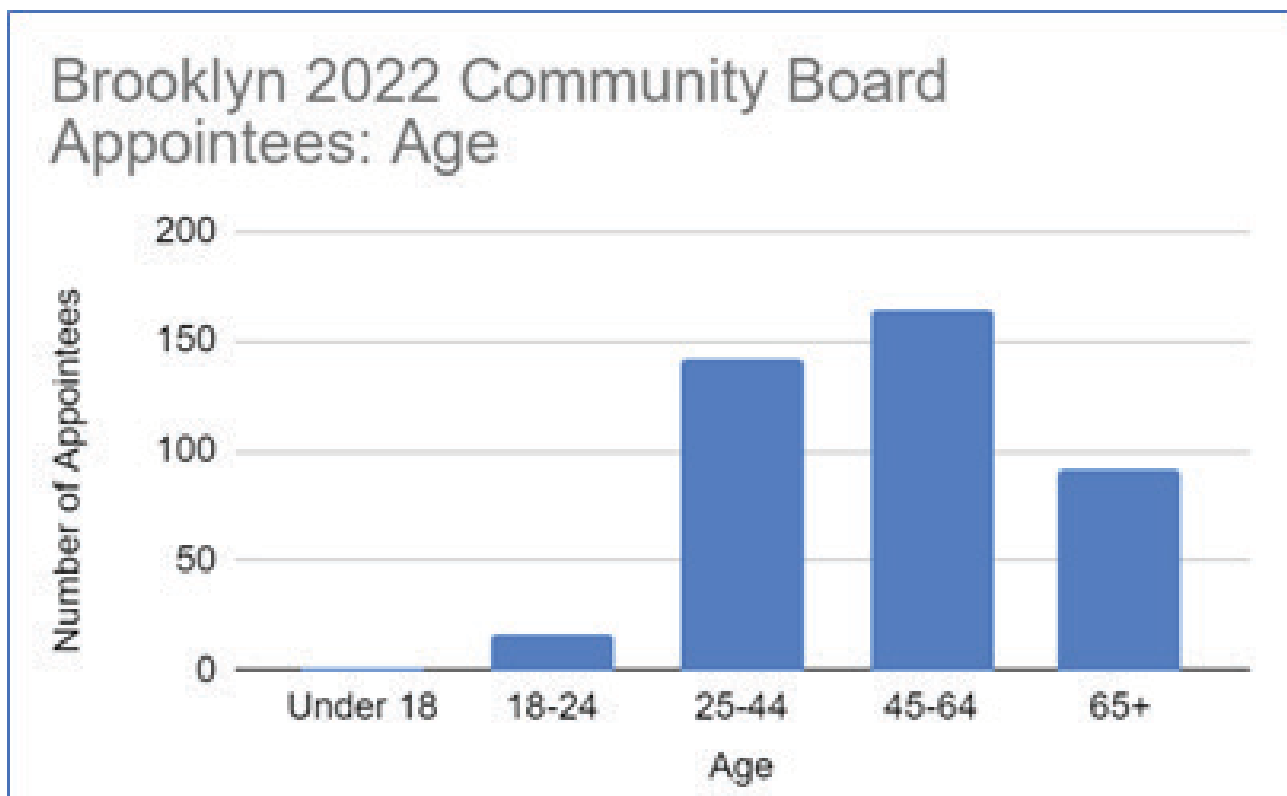

The following information is based on the data collected from new and returning 2022 appointees who provided demographic information in their application.

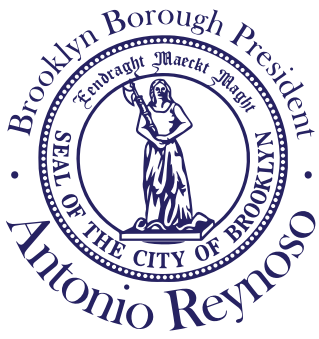

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

AGE

The median age of Brooklynites is 34.7, yet community board members have historically tended to be older, and this year was no exception. Most applicants and appointees were age 45-64. Yet almost 23 percent of Brooklyn residents are 18 years old or younger, as such, Borough President Reynoso is committed in the long-term to appointing two persons aged 16-18 to each community board. Adding more young membership was a challenge in 2022 as the BBPO only received 17 total applications from persons 24 and under. Note, due to the updated application form, next year's data will allow for a more precise age breakdown.

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

EDUCATION

About 39 percent of Brooklynites have a Bachelor's degree or higher, and about 83 percent have graduated high school. In comparison, the 2022 community board appointees tend to have more formal education than the average Brooklyn resident – about 89 percent of appointees who responded to this question indicated that they had a Bachelor's degree or higher, with 55 percent having a Master's degree.

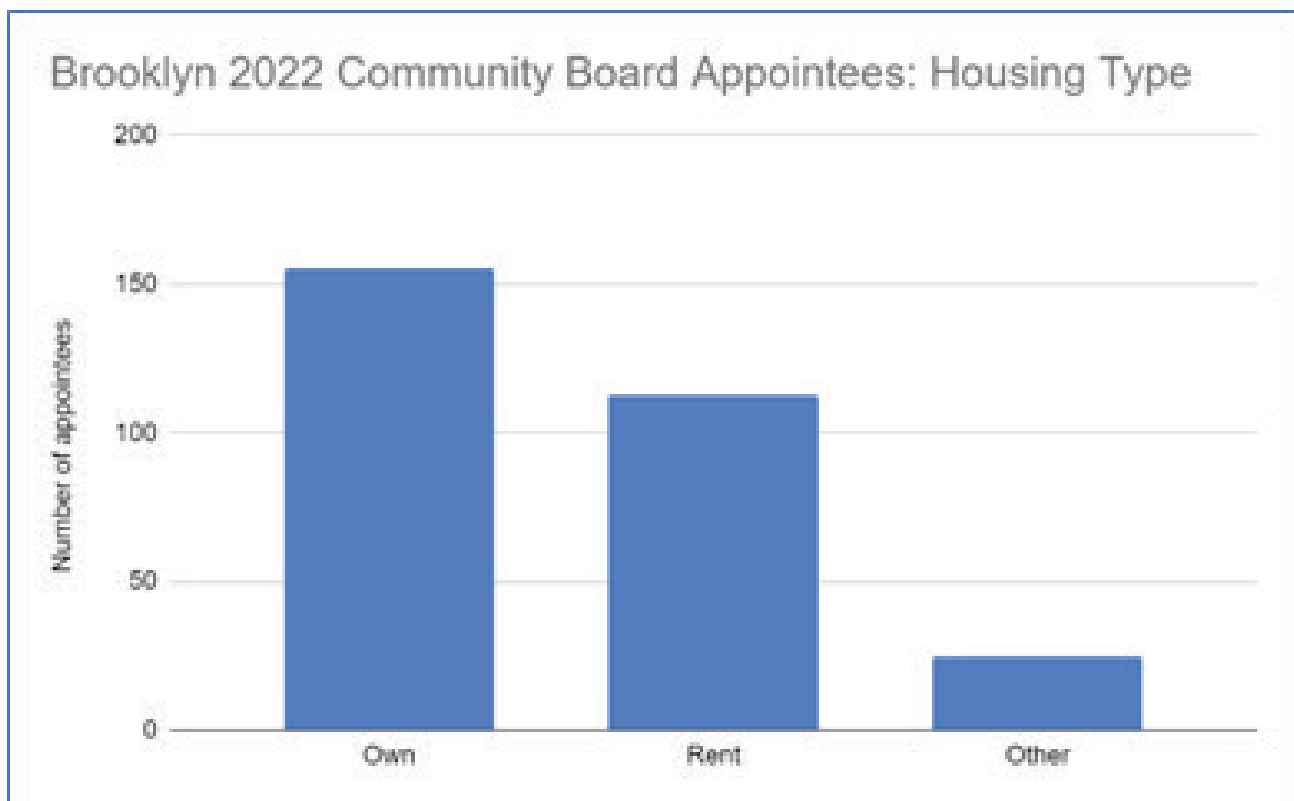

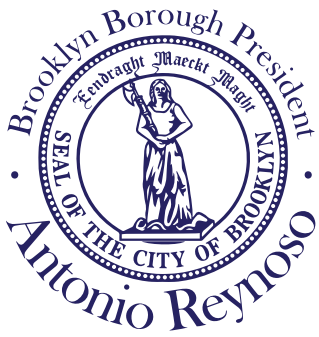

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

HOUSING

About 70 percent of Brooklynites are renters, while 30 percent own their homes. Of the community board appointees who responded to this question, 38 percent were renters, 53 percent were homeowners, and 8.5 percent were classified as “other”, such as living with family or in in a shared arrangement, such as renting a room.

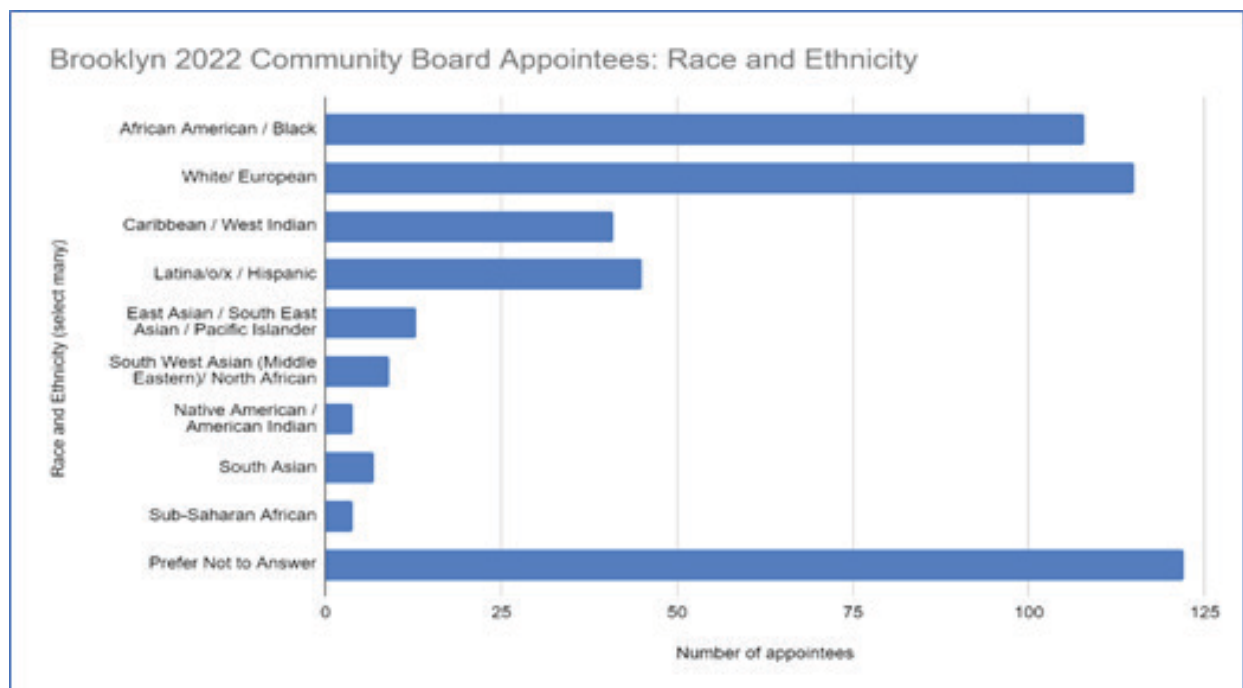

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

RACE AND ETHNICITY

In Brooklyn, about 35.4 percent of the population identifies as White, 26.7 percent as Black or African American, 13.6 percent as Asian, and 5.5 percent fall outside of these categories, including those choosing two or more races. Nineteen percent identify their ethnicity as Hispanic or Latino. The race and ethnicity categories provided on the community board applications do not correlate directly with those provided on the Census, so a direct comparison is not possible. Additionally, approximately 27 percent of applicants did not answer this question, and respondents who did were able to choose multiple categories, meaning the numbers do not correlate directly with the total number of appointees. The data collected shows the largest number of appointees said they identified as White/European or African American/Black, followed by Latino/Hispanic. Only about 7 percent of appointees identified as Asian.

BROOKLYN COMMUNITY BOARDS DEMOGRAPHIC REPORT 2022

OTHER INDICATORS

The updated application form asked applicants a new set of questions. From the limited data collected, 52 percent of respondents identified as female, 47 percent as male, and 1 percent as gender non-conforming. Six percent of appointees identified as LGBTQ, 13 percent are a parent to a school-aged child, 10 percent are immigrants, and 4 percent identified as a person with a disability. Again, due to limitations in data collection (and applicants choosing not to answer), this is not a complete picture.

LOOKING FORWARD

BBPO's goal for future appointment rounds is to recruit a diverse group of applicants who accurately reflect Brooklyn's residents, as well as a sufficient number of those applicants to fill all 900 seats.

BBPO is developing a robust, targeted outreach and engagement plan using traditional and non-traditional tools to bolster citizen awareness of community boards and increase the number of applicants. This includes but is not limited to leveraging relationships with community and resident organizations, interest groups, elected officials, and schools and colleges to expand outreach.

To facilitate geographic diversity across community districts, BBPO will also map the addresses of this cycle's applicants, appointees, and board members to identify the geographic areas that require hyperlocal outreach. The application form will also be updated to collect more granular data.

MEMBERSHIP BY BOARD

The following pages include the member rosters of the 18 Brooklyn community boards, inclusive of district office information, names of the chairpersons and district managers, and membership as of June 9, 2022.
