The following agenda item will be heard:

The proposed reconstruction of Third Street Playground in Prospect Park includes new play equipment and imaginative play elements for 2–12-year-olds, new tot swings and tire swings, water play features, and code-compliant recycled rubber safety surfacing and concrete pavements. Tropical hardwood from the current design will be repurposed as wood decking at the surface level with three new tree pits to introduce much needed shade into the center of the playground. Ground play, such as play panels and rustic playhouses, introduce new opportunities for open-ended and creative play for children of varied ages and abilities. The board will vote to issue a recommendation to New York City Landmarks and Preservation Commission (LPC) and Public Design Commission (PDC).
